NOT A PARTICLE
OF SKIN ON BODY

Worst Case of Eczema Doctor Had Seen in 40 Years—For Six Months Father Expected His Baby to Die—Blood Oozed Out All Over Her Body—Had to Be Wrapped in Silk and Carried on a Pillow—Now She Is Perfectly Cured.

DOCTOR RECOMMENDED
CUTICURA REMEDIES

"My little girl was born two weeks before her time and my wife died four hours after the birth of our child and I had to raise the baby on artificial foods. Six months after birth she broke out and I had two doctors in attendance. There was not a particle of skin left

on her body, the blood oozed out just anywhere, and we had to wrap her in silk and carry her on a pillow for ten weeks. She was the most terrible sight I ever saw, and for six months I looked for her to go to her mama, but thank God and his agents, she is alive and well to-day and she will be three years old the seventh of December and has never had a sign of the dread trouble since.

"I used every known remedy to alleviate her suffering, for it was terrible to witness. Dr. C. gave her up and then I went to C. F. and got Dr. B. and he and Cuticura Soap and Cuticura Ointment saved her. He recommended the Cuticura Remedies, or said we were right in making use of them. As nearly as I can remember, we used eight cakes of Cuticura Soap and three boxes of Cuticura Ointment; but you must take into consideration that hers was an exceptional case, for an old and good doctor said that it was the worst case that had come to him in forty years. I have always hung on to Cuticura Soap to keep her skin soft and to give her a pure complexion. James J. Smith, Wood and Metal Pattern Maker, Box 234, Buena Vista, Va., Oct. 14 and 22, 1906."

REGULAR DRILLS RESUMED.

The Gainesville Guards Will Hereafter Meet Regularly.

For the first time since their return from the State encampment at Fort Pickens, the Gainesville Guards, Captain J. W. Blanding, last night got down to regular business in the matter of drilling and for a couple of hours Captain Blanding and his efficient lieutenants, Shields Warren and W. D. Wheeler, kept the men busy in the manual of arms and field movements.

There was a good crowd present at this drill, and the movements of the men showed that they had not forgotten the valuable "points" they had gained during their ten days' association with the soldiers of the regular army at Fort Pickens.

Captain Blanding and his officers feel very much encouraged over the interest being taken by the men, and feel confident that the Guards will continue their excellent reputation as one of the best drilled in the State Troops.
